**HIV and Sexual Health  
Covering Hertfordshire  
35 Hours per week**

(Pro rata if part time)  
Applicants for part-time and job-share will be considered

The Crescent is a charity working to support and care for people living with HIV, their partners and family, in and around Hertfordshire and Buckinghamshire

We are recruiting two Support / Outreach Workers to provide a range of services to our clients which will include emotional and practical support and outreach services within the community.

For the Senior Outreach / Support role, you will to oversee a team of support workers providing a range of sexual health services, whilst managing your own caseload.

For both positions you will need to have experience of working in a social care setting and knowledge of issues facing people living with or affected by HIV in the UK.

In addition you will provide face to face interventions including emotional and practical support; health promotion, sexual health services, facilitation of peer support and access to immigration, benefit and housing advice by developing relationships with relevant professional bodies.

It is expected that the majority of interventions will be provided on an outreach basis and that these interventions will take place outside of the Crescent's premises i.e. on an outreach basis at other organisations, schools and colleges, community centre's, health centre's, NHS premises and in client's homes.

We are committed to equal opportunities and particularly encourage applications from people living with HIV.

Use of a car and full UK driving licence is essential.

For more information and an application pack please contact Ashley Miskin - Project Manager / 01727 842 532 / [ashley@thecrescent.org.uk](mailto:ashley@thecrescent.org.uk)

Closing date for received applications: 23 July 2010  
Interviews to be held on the 29 July 2010
